Setting up Titan Live on your Android phone.

Introduction

This paper provides information on setting up your Iphone to access your email, contacts, and calendars on Titan Live. Before beginning you will need to know your Titan Live ID and have activated your account on the https://myaccount.gtcc.edu website. You also will need to login to your Titan Live account at http://titanlive.gtcc.edu.

Due to the many different flavors of the Android OS and interface types this walkthrough is an overview and may not match your phone exactly. For detailed information please refer to your manufacturers manual for your device.

Important Information

Username: Titan Live email address
Password: Your Titan Live email address
Server name: P.outlook.com

Remember to activate your account at https://myaccount.gtcc.edu and login at http://titanlive.gtcc.edu before trying to sync your account to your phone.

Step 1: Go to your mail setup and select to add new account.

Step 2: The mail provider should be Exchange ActiveSync

GTCC
## GUILFORD TECHNICAL COMMUNITY COLLEGE
Step 3: Your email is your full Titan Live email address. The password is the same password used to access your Titan Live account. When finished select Next Note: You need to activate your account at https://myaccount.gtcc.edu first, then sign into your account at http://titanlive.gtcc.edu before before continuing.
Step 4: In the next screen you will need to enter in your account credentials. Ther username is your Titan Live email address. The server name is P.outlook.com. Leave domain blank. If asked the connection does require encryption.
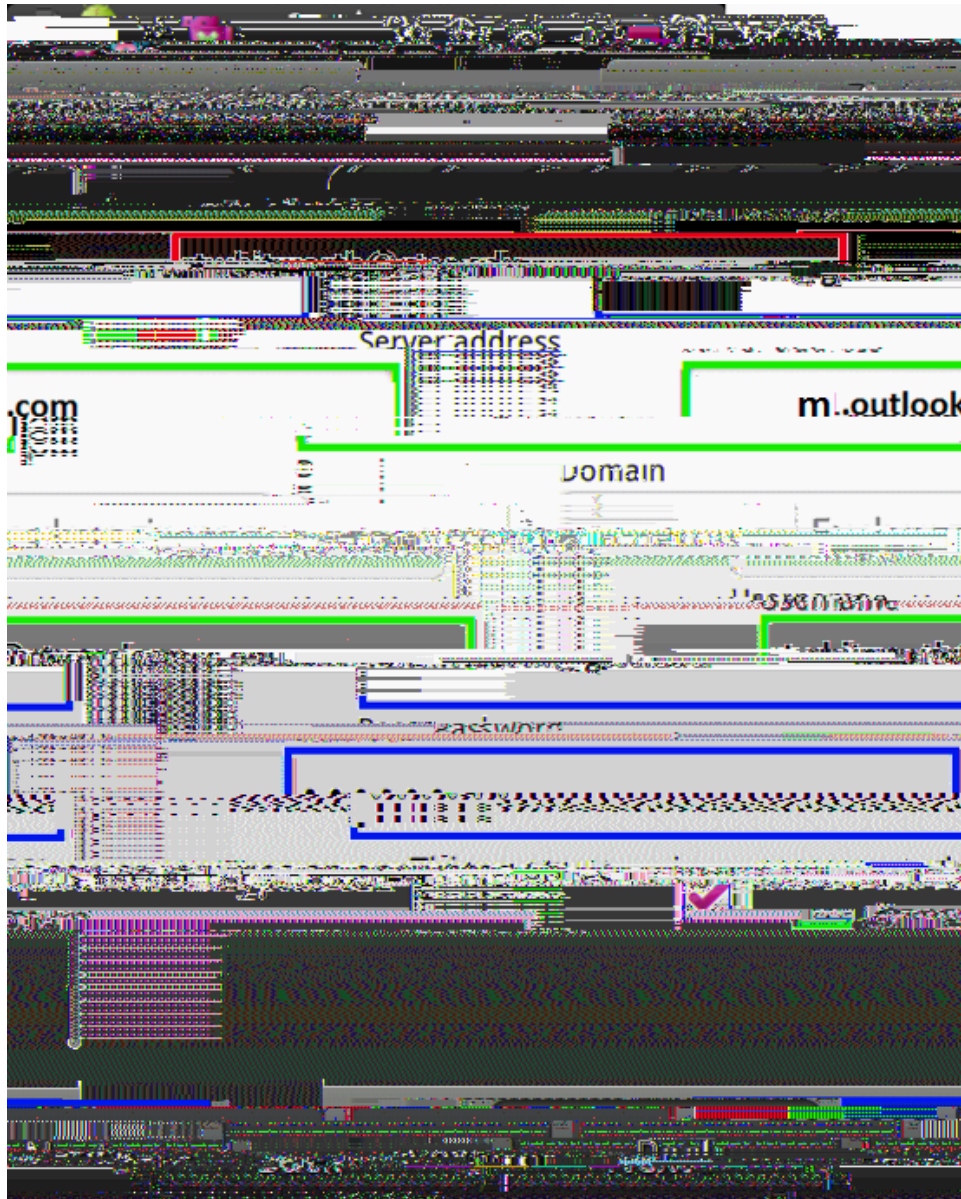

Step 5: Select which items you would like to synchronize on your phone and select Finish setup.
